

For Superintendent of Schools.

We are authorized to announce Mr. W. E. Gresham as the successful candidate for the office of Superintendent of Schools for Monongalia county.

DR. G. B. MORRIS will always be found in his office in Morgantown from the 20th to the last of every month.

Base balls and guides for 1889 at the News Depot.

DR. A. M. KRAMER, dentist, will be at his office in Morgantown April 22.

A. E. LAZAR has had a new building erected at the door of his parlor looking over the public square. Fifty silver watch cases just received at Henry S. Hayes', the cheapest watches in the town. Go and see them.

All grades of L. P. Thomas & Son's celebrated fertilizer on hand and for sale by A. F. Lawhead at Morgantown, W. Va. 4-20-8.

GEORGE SISKER, Stewartstown, on Monday bought one of the Keener looms near the University through T. W. Anderson. He will learn will build a residence upon it.

JOHN SNIDER, of near Gladesville, Preston county, has been granted a pension as dependent father through J. S. Watson's Pension Agency in ten months from application.

The brick is in the ground ready for a new pavement to be laid on the north side of Pleasant street from Main to Spruce. Keep the good going since the weather is good, worthy councilmen.

Quite a number of very complimentary notices referring to the Creamery Bulletin of the Agricultural Experiment Station have lately appeared in the State press. The papers can add much to the usefulness of the Station by occasional notices.

BERT LAZAR has the newest and most complete ice cream manufacturing apparatus ever seen here. He has a fine little steam engine to run the freezer, using natural gas for fuel, which greatly facilitates the work and proves to be a great labor saver. Bert is a very energetic caterer.

An intelligent and progressive farmer from Monongalia informs us that there have been no cases of cholera to raise fear cattle and more horses, the profit on the latter proving more remunerative; and more especially since the breeds are being improved by the admixture of the blood of the Norman and Clydesdale breeds—Kingwood Era.

Fire was discovered in the chimney of Watts & Protzman's Marble Works Sunday night, the blaze leaping out in a big volume. The gas had been turned on too high in the stove and the soot had ignited. It was turned down and no damage done. Persons would do well to have their chimneys cleaned of soot. It makes less danger of fire.

WHISKY makers have taken another serious quirk and turn at Fairmont, in so much that no licenses will be granted till after the June session of the County Court and even then it is likely that there will be a failure to connect. It seems that the people of the Mountain City will continue to wet their whiskies with the ardent that is sold no place, but is always plenty.

DURING all the time that Mayor East has been in office he has never retained a cent of costs and never received a cent for fees. Don't look like he could be charged with taking the great interest in the town that has been taken for the consideration of what money there is in the office. He had a right to make some money out of the office, but the fact stands that he hasn't.

In another column appears the advertisement of the Washington Life Insurance Company of New York. The company is represented here by Mr. Chas. E. Jolliffe who has been appointed a special agent by Mr. C. B. Briscoe, who is the general agent for this State. The company is an old company and one of the solidest in the country. Prof. Purinton, we learn, has been insured in this company for over 20 years.

The County Court of Marion county is a progressive body. Last week the State transferred its interest in the suspension bridge at Fairmont with the proviso that the county purchase the remaining shares of stock that were held by individuals. The court after the usual deliberation decided that in making the purchase the best interests of the county would be consulted, and acting on that decision made an order to that effect at the recent session. This makes the Fairmont bridge free and the people are all happy.

The Morgantown correspondent of the Wheeling Register Saturday, says: Contrary to some reports in many of the State papers, regarding the Mt. Morris oil field, I today received from very reliable authority the information that the supply is constantly decreasing, the wells there only flowing from 500 to 600 barrels a day against 1,500 to 1,200 barrels a few weeks since. The same ratio compares to the shipments from this place, now only about seven cars per day being shipped against eleven and twelve a short time since.

JASPER JONES, who last week was arrested near Mt. Morris on a charge of murder, preferred by Kentucky parties, where the murder occurred about a year ago, has returned, he moving to be a more permanent resident. He was arrested by Detective Gothorp, of Clarksburg, who was after the murderer, whose name was Gum. Jones answered the description and was taken to Kentucky by the detective, though all the time protesting his innocence. It did not take long after his arrival for all to see that Jones was not Gum, and he was released, and returned to his home. He works on the tramway in this county near Mt. Morris and is an honest citizen and a good worker. We are glad to see him cleared.

WHAT has become of the Chamber of Commerce? As we understood it the honorable body was to report publicly the advance that it had made in corresponding, advertising, securing locations, et cetera, at an early day after their appointment. We know that a good deal of work has been done by the members, but as to what satisfactory ends accomplished still remains a mystery, and so far as the public at large is concerned no knowledge at all of their movements has been made known to the public. We would suggest that the chairman call a meeting of the chamber for to-morrow evening and let the committee reports be read for the edification of the masses. It is not our intention to be a success and to be taken with truth say that if care is not taken the boom enthusiasm manifested at their organization will die and knowledge of their progress will be made to those whose interests would be consulted by knowing. Let's have the meeting Thursday evening and keep the ball rolling.

More News.

Miss Laura Dawson went to Pittsburg this morning on her second stock of new millinery, notions and ladies' furnishings. Nothing but the best lines will be selected and ladies who can't get just what they want of local stock will be extremely glad to please. And every thing will be sold at popular prices.

A Representative Ticket.

To the Editor of the New Dominion: As it seems to be generally agreed that we are to have a new Board of Education, I suggest the following as a representative ticket. If any of our friends will press it, let him name the men: William Moorhead, Charles A. Hayes, Dr. Spencer Wade, Walter A. Mestrezat, Miss Sadie Pashan. A Non-Partisan.

Commencement Daily.

We hope our people will give Messrs. Corley & Swan's University only a cordial greeting. As is customary, the commencement exercises will be taken to publish a daily paper during the commencement season at the University. It will contain accounts of the exercises at the University and the local and outside world during the week. It will be sent to any address during the week for 25 cents.

Accident to W. L. Jacobs.

Last week Mr. W. L. Jacobs, of the Indianapolis Millstone, formerly of this paper, missed two fingers of his right hand in doing some work about his place in his office. It is thought that one of the fingers can be saved, though it will be necessary to amputate the third finger. Will be one of the best printers in the country and we hope his accident will not permanently disable him from work.

Morgantown Progressing.

Prof. W. P. Willey, of the State University at Morgantown, was in the city for a brief visit yesterday afternoon, en route to Wellsburg, where he lectured last night. Prof. Willey says Morgantown is becoming quite a boom, which has been much accelerated by the introduction of natural gas. A water works is in process of erection, which will supply the town with pure spring water through the town. With natural gas, pure water, pure air, fine scenery and ample facilities for business, Prof. Willey thinks the future of the University town is assured.—Wheeling Register.

Closing Out Sale.

Mr. S. Hitchens has determined to close his mercantile business in Morgantown and offers the entire stock of goods now in the store at cost for cash. The stock is full and rare bargains are offered. Such opportunities to buy at low prices are seldom had. Among the stock will be found excellent dress goods, a big line of gentlemen's and ladies' shoes, gingham, prints, shirtings, table cloths, towels, hosiery, neck wear, etc. And other items. It is a line of tea reduced from 80 to 60 cents, and other excellent brand at 40 cents, and scores of other things. Go and inquire for what you want.

The Best and Cheapest Marble Works.

The little flurry caused by the fire a few evenings ago has only stimulated the trade in the marble works of J. E. Watts & Co. In fact the fire was caused by a rush of business. We may add that this popular firm is now filling orders faster than ever and that their reputation for quality and cheapness of goods is well known to the agents of firms doing business in distant cities. They are always willing to have their work examined by competent judges and compared with that bought in the east.

Orange Blossoms.

Next Wednesday two of Fairmont's popular young people will be joined in holy wedlock, namely: Mr. James K. Nye and Miss Hallie K. Nye. The bride is a well known and ably known here. Miss Hall has been a reigning belle of the Mountain City for the past few seasons and many young men from here have been captivated by her beauty and accomplishments and gracious and amiable manners. Mr. McCoy in the index staff is a young man who has before him a bright future, which he has been blessed with a more intensely interested and more auspicious by his marriage with his brilliant affianced. We extend hearty congratulations to the young couple. May all the joys that heaven has in store be theirs and their pathway through life be strewn with most fragrant flowers.

"Is Marriage a Failure?"

Some of our young men have taken the steps toward bringing Mrs. Belva A. Lockwood here to lecture on the above popular theme. Mrs. Lockwood's reputation as an orator and orator is well established and the audience that will assemble to hear her at Morgantown is sure to be large. Saturday night, April 27, is the date of her lecture. The Presbyterian church has been secured for her lecture. She is a woman of force and brilliant intellect, with a brain well stocked with information and a fluent and eloquent speaker. She is not a woman of ideas, as some suppose, confined to any subject you may desire in a most convincing and argumentative style and in three or four sentences can tell all who hear her. Don't miss this opportunity to hear the famous queen of the American bar. Tickets will be sold at the low price of 50 cents each.

"Uncle Jack."

Last Thursday night a good sized audience gathered at the Casino Hall to witness the production of "Uncle Jack; or Testing Hearts," which was given under the auspices of the young ladies of the Presbyterian church. Messrs. G. Stoetzer, E. A. Smith, J. E. Moore and Misses Mary Casselberry, Madge Brown, Bessie Murphy, Edna Hough and several children constituted the dramatic personnel. It is a comedy in three acts, representing various different phases and circumstances in life, with a great moral and warning to those putting a money value on everything, character and esteem being the only things that are of value. The stage was probably arranged in better style than ever was known before, which proved to be an attractive acquisition to the entertainment. After the conclusion of the comedy a one act farce, entitled "A Pretty Piece of Business," was given, participated in by J. B. Clark, A. L. Thayer and Misses Edna Hough, Mary Dille and Nettie Nye. It was a success and was well received after a row of laughter. About 800 was cleared, which was presented to the church. It had been a long time since "home talent" had done any thing of the kind, and the talent displayed on this occasion was highly appreciated by the delighted audience.

Got the Wrong Bottle.

Last Saturday Mrs. Marshall Crow, who was sitting usual at the time, got down a bottle from a shelf and took a dose of what she presumed was her medicine but what proved to be laudanum. She was so much affected by the powerful feelings almost instantly and in a short time read the label on the bottle, thus showing her the mistake she had made. She had the presence of mind to send for a physician who administered the proper antidote and caused the poison to be emitted from the stomach, and she was pronounced out of danger. The lady's system was considerably shattered by her wrong doses and she was quite sick for several days. She is able to sit up now.

Industry Council, Jr. O. U. A. M., Instituted.

Tuesday evening of last week a Council of the Junior Order of United American Mechanics was instituted here, Deputy National Councilor John H. Gilson, of Charleston, was here a short time the other day on his trip. Twenty-two candidates were initiated into the mysteries of the Mechanics, all good material, and they will do their work under the auspices of the Industrial Council No. 11. The prospects are most flattering for success and much good being done by this new order here. The officers who will serve during the next term are: Councilor, Joe R. Miller; Vice Councilor, C. S. Rogers; Junior P. C., Phil A. Shaffer; Recording Secretary, A. B. Boughner; A. R. S. Worth; Jolliffe; Treasurer, H. Bruce Watkins; Fin. Sec., Wm. C. Gaddis; and Conductors, S. Grove Kelly; Warden, A. A. Rogers; Inside Sentinel, A. B. Purman; Outside Sentinel, Wm. E. Arnett. The meeting nights will be Wednesday evening of each week, in Odd Fellows Hall.

Might Have Been Wounded.

Monday afternoon of the 22nd, Master James McGraw and Miss Irene Myers returned from a horseback ride, and stopping at Prof. Myers' they were informed by Ralph Davis and Fannie Berkeley to take the horses to the livery stable. The little people mounted and when near Dr. Casselberry's residence the horses started off in a trot. This seemed to scare the riders and both let go the reins and held to their saddles. The horses went on at speed and when passing the Wallace house were tearing down street as hard as they could go. Arriving at the Court house the horses got on the pavement to make a near cut down the alley to Carraco's stable and in turning the corner, miraculously it is, both the youthful riders were tumbled on the sand pile there, neither, fortunately, being much hurt. Fannie rolled off her horse and pile into the gutter and about the only injury she sustained was from being well plastered with mud. Ralph got up and walked home. It is fortunate that the fall was where it happened.

Water Works Works.

The estimate line from the springs to Morgantown shows the distance to be 6 miles and 50 feet long, which is completed. Prof. Jackson is now making a complete plat of the line, after the completion of which work will begin. It is thought that by May 1 this work will commence.

The plan for the mains in town is the next work for the engineers, and that of the water works has not yet been given out as to the layout, trenches, size of pipe, location of plugs, etc., but the surface lines will be run this week.

The lower end of Prof. Myers' lawn is just 270 feet lower than the springs, thus insuring a strong hydraulic pressure for the consumers. The points in town higher than the one mentioned are not so much as of an audience by the difference in the pressure.

Mr. Grant says that by August 1, not later than September 1, sure, the water will be running through the mains here. Heaven help him to make his words true.

Good Bye, Nate.

On the 22nd of the month, Mr. S. A. Nye, in his resignation as Postmaster, was accepted by the Board of Post Office Commissioners. Mr. Nye, who has been in the office of the Post Office at Fairmont, has been appointed to fill the place. Mr. Shaffer was tendered a farewell party by the friends of the town. Mr. Nye is a well known and ably known here. Miss Hall has been a reigning belle of the Mountain City for the past few seasons and many young men from here have been captivated by her beauty and accomplishments and gracious and amiable manners. Mr. McCoy in the index staff is a young man who has before him a bright future, which he has been blessed with a more intensely interested and more auspicious by his marriage with his brilliant affianced. We extend hearty congratulations to the young couple. May all the joys that heaven has in store be theirs and their pathway through life be strewn with most fragrant flowers.

Mr. Nye, who has been in the office of the Post Office at Fairmont, has been appointed to fill the place. Mr. Shaffer was tendered a farewell party by the friends of the town. Mr. Nye is a well known and ably known here. Miss Hall has been a reigning belle of the Mountain City for the past few seasons and many young men from here have been captivated by her beauty and accomplishments and gracious and amiable manners. Mr. McCoy in the index staff is a young man who has before him a bright future, which he has been blessed with a more intensely interested and more auspicious by his marriage with his brilliant affianced. We extend hearty congratulations to the young couple. May all the joys that heaven has in store be theirs and their pathway through life be strewn with most fragrant flowers.

On the 22nd of the month, Mr. S. A. Nye, in his resignation as Postmaster, was accepted by the Board of Post Office Commissioners.
